

PhD Course

Introduction to Health Sciences

block course: ~~6/7 March 2024~~ > postponed to 4/5 June 2024
and 16/17 April 2024

Location:

16 April 2024, 09h00 – 17h00, UKE, W37, old building, conference room 2nd floor
17 April 2024, 09h00 – 12h30, UKE, room N55/SR 309
4 June 2024, 09h00 – 17h00, UKE, W37, new building, 4th floor, room 04.13.1
5 June 2024, 09h00 – 12h30, UKE, W37, old building, conference room 2nd floor

Course Instructor: Prof. Dr. Hans-Helmut König (UKE),
Prof. Dr. André Hajek (UKE)

Course Value: 2 SWS (5 credit points for the Graduate Program Business Administration)

Assessment/Student evaluation: Presenting a paper; grading will be pass/fail

Course Language: English

Software: N/A

Registration: Please register via STiNE. For all organizational matters please contact e-mail andrea.buekow@uni-hamburg.de.

Course Overview & syllabus:

This course will introduce PhD students to health sciences, with a focus on commonly used concepts, methods and research designs. We will present topics including measures of morbidity (e.g., prevalence or incidence) and research designs (observa-

tional, experimental and quasi-experimental). Moreover, measures of effect (e.g., absolute and relative effects) will be presented, followed by data interpretation issues (e.g., bias or confounding). Subsequently, sampling techniques (e.g., probability or non-probability sampling methods) and sources of data (in particular data sets available for research will be presented here) will be presented.

In the second part, the PhD students will present and discuss studies related to quality of care. Here, they will refer to common guidelines (e.g. STROBE) and to the assessment of study quality using common tools (e.g. NIH Quality Assessment Tool for Observational Cohort and Cross-Sectional Studies).

The course is designed for PhD students of the Research Training Group 'Managerial and economic dimensions of health care quality'.

SYLLABUS (subject to being changed)

- **Day 1:**

Measures of morbidity/mortality	16.04.2024
Observational research design	9:00-12:15
Experimental research designs	André Hajek
Quasi-experimental research designs	16.04.2024
	13:15-16:30
	Hans-Helmut König

- **Day 2**

Measures of effect	17.04.2024
Data interpretation issues	9:00-10:30
	Hans-Helmut König
Sampling techniques	17.04.2024

Sources of data	10:45-12:15 André Hajek
-----------------	----------------------------

- **Day 3:**

Presentations by the PhD students	04.06.2024 9:00-12:15 André Hajek
Presentations by the PhD students	04.06.2024 13:15-16:30 Hans-Helmut König

- **Day 4**

Presentations by the PhD students	05.06.2024 9:00-10:30 Hans-Helmut König
Presentations by the PhD students	05.06.2024 10:45-12:15 André Hajek
