Assessment/Student evaluation: Home assignment; grading will be pass/fail.

Course Language: English

Software: N/A

Prerequisites: None

Registration: Please register via STiNE. For all organizational matters please contact e-mail andrea.buekow@uni-hamburg.de.

Course Overview & syllabus:

This course will introduce students to the world of academia. We will discuss typical models for a scientific career, introduce into journal rankings and explain peer-review processes. We will then discuss how to structure scientific papers and getting them ready for submission and how to best tackle the later revision of a paper. We will discuss research integrity, including 'good scientific practice' and also discuss differences in academic culture between business administration, economics and medicine.

The course is designed for PhD students of the Research Training Group 'Managerial and economic dimensions of health care quality' and it will put special emphasis on the subdiscipline of health economics / health care management.
